EDUCATION

2021 - 2024

JAYAM ARTS AND SCIENCE COLLEGE

- Bachelor of Computer Science
- CGPA:8.2

2024-2026

HINDUSTHAN COLLEGE OF ARTS AND SCIENCE

- Master of Computer Applications
- CGPA: 8.5

SKILLS

- HTML/CSS
- MySql
- React js Basic
- Python
- Ai/ML Basic
- GitHub, VS Code

INTERSTING

web application development

PROFILE

An enthusiastic Web Developer with hands-on experience in building intelligent and interactive web applications using Flask, HTML, CSS, JavaScript, and Machine Learning. Skilled in integrating AI features such as prediction systems, voice assistants, and multilingual interfaces, I focus on creating responsive, user-friendly, and data-driven solutions. Passionate about blending AI and web technologies, I aim to contribute innovative ideas that improve efficiency, usability, and real-world impact.

PROJECTS

Main Project

Leaf Disease Detection Website

- Online Leaf Disease Detection System - Python, Flask, TensorFlow, HTML/CSS, MySQL
Duration: Jan 2025 - Apr 2025
- Description: Developed a web application to detect plant leaf diseases using a CNN model. Implemented user-friendly interface with image upload and disease prediction results.

Fake News Detection

- Fake News Detection Web App - Python, Flask, Machine Learning, Bootstrap, MySQL
Duration: Aug 2024 - Dec 2024
- Description: Built a web application that classifies news as real or fake using NLP and ML mod

Achievements

Certificate & Activites

- Certificate : Explore Machine Learning Using Python.
- Basics Of python
- introduction to artificial intelligence
- Vibe Coding
